## About the Reedsport Braves Boosters Association:

Across Oregon and the nation, school district funding for athletic and activity programs continues to decrease. Reedsport schools are no exception. The Braves Boosters Association is being relied upon for more and more support of these programs. Since the late 1960s, the Braves Boosters have been committed to this challenge. As times change, so does our organization. In the past year alone, we have taken steps to modernize our organizational structure. We are seeking more grants and corporate donations. We are working with our schools to introduce a "work-to-play" program, to complement the existing "pay-to-play" fees. We are also strengthening our accountability efforts within our various endowment funds. What has NOT changed is the need for support on an individual basis, from people like you. Your purchase of Braves Gear helps support our cause, and in turn helps keep a wide variety of athletics and activities available to the youth in our area.

**Straight donations via cash or check are always welcome. You can also donate or make Braves Gear purchases online at our website:**
